UPCOMING TRIPS

Expression of Interest - Birdsville Track Easter Holidays 2011

I am thinking about doing a 17 day trip over the Easter School Holidays in 2011, leaving April 9th returning back by on or Anzac day. My intention is to do this with a Camper Trailer. I would like to know if there are any people interested in doing the Birdsville trip - *and I would also like to hear from people who have done the trip* in recent times to find out about track conditions and suitability of doing the trip *with camper trailers*. Also would like thoughts as for good places to stop/see along the way.

My plans were to get to the start of the Birdsville track over 2 days, and then doing about 250/300 km's per day (or less), depending on track conditions and amount of sightseeing stops we make reroute. Once we get to Birdsville, drop the trailers somewhere and have a go at Big Red. Then head along the Birdsville Developmental track into Roma district before turning south and coming home via the blacktop over a couple of days.

Please contact me via email admin@bruinsma-design.com.au, or by phone 0417 747 860, or at home on 9702 0288.

Regards,
David Bruinsma

Trip Reports

VICTORIA RALLY at Lardner Park

Three of the committee members met at the BP Longwarry at 7pm on the Friday night and after a bit of chinwag we headed off to Lardner Park to try to find Luke. Detouring around a bad accident on the main intersection to Lardner Park with about half of Victoria's police units from the whole of Gippsland in attendance, we got to Lardner Park ourselves without any incident. We found Luke and his caravan just before the rains came down, so we took cover in his van until the storm front passed through. About 10pm we had a bit of a wonder around and found where we were to set up the next morning.

Dan used a spare bunk in the Van, and Bruce and I decided it was not worth setting up our tents in the dark in the rain - so we elected to try to sleep in our respective vehicles for the night. Probably not the best of idea's to be honest. Neither of us got any good sleep because of the rain. But it was an experience.

Bright and early the Rally cars started coming into the grounds from wherever they had disappears to the night before, so I woke up at about 7am - rubbed the sleep out of my eyes and started to straighten the stuff up in the car so I could drive it to the allotted set up area.

By a fluke, Dan had also woken up and parked his car about 20 seconds before I got there. Dan and I quickly set up a Marquee that I'd borrowed and set up a table - so we were set under a dry area for the day. I then walked back to wake up Bruce who was still sound asleep. I had to wake him up, as his car was about to get parked in by a about 2 dozen cars. (Sorry Bruce). A little later on, Colin Armour also joined us for the day.

We were spectators all morning, watching the cars commence there line up sequence right in front of us before going through the first check in point, then heading off to do what they were supposed to do and coming back approx 2 hours later. I must confess that there were NOT a lot of spectators at all - because of the small turn out to the event, we were not really able to promote the club as we hoped we might, but it was an interesting day seeing how a rally is staged. We did not get to 'see' any of the rally as it was held in the local state forest I believe.

Just after 1pm, in a decent break in the weather, we packed everything up whilst it was mostly dry. Bruce and I left about 1:30 in the arvo, whilst Dan and Colin stayed longer. I found out more than a week later that due to the afternoon rally being cancelled, they brought forward the late afternoon Rally around the dam at Lardner Park, so Dan and Colin got to witness some of that ... well, that's life I guess.

David Bruinsma

WET TOOLANGI TRIP - SATURDAY OF CUP WEEKEND

Prelude: After a trip earlier in the year run by Anthony VB, Antz put me onto a Forum for Navaras, www.navara.asia, which I joined as a member - and have now met a couple of the people from there and recently did a 4x4 trip with one of the members. There is a lot of friendly rivalry between the D22 and D40 owners, and I had fun this particular day getting one up on a D22 owner, by making sure he got well and truly stuck, and then using my D40 to get him out. At the end of this submission, I'll give you the link where you can read the original web posts and you will also be able to watch a couple of short videos. One of the videos is 5 minutes, shows the D22 getting bogged, and the D40 getting him out ...

On October 30th, I managed to catch up with a friend from the NAVARA FORUM Scotty Bobcat, together with our wife's and 1 kid each ...

It started out as a glorious day (where was that rain that was supposed to be around).

We met at Healesville and commenced our day at 9am from the local Tourist centre, with Scott and I getting the local Rooftops map for the area. I'm not going to bore you with all the trips specifics and which tracks we went on - but I'll give you an indication only.

We took off for Toolangi initially, but not on the main road - Scott new of some dirt roads to the west of the main road, so that's the initial route we took. All of the side tracks that Scotty wanted to show me where closed, so it did not take too long to get to Toolangi. Went to the local pub and got fresh coffees for the adults, and toilet stop for the kids. (oh, and some of the adults too).

Took off in a south east direction and did not take long for Scott to find that was going to test us (wet and slippery) - but this time we were safe doing it on 4 wheels, instead of his previous attempt at 2 wheels. (Scott had been up this track on a motorbike and stacked the bike, and now has permanent back injury)

Well, a very nice track indeed. Had some steep sections. Had some wet sections. Had some boggy sections. Scott managed to get his high powered D22 stuck a couple of times. He had to winch himself out of trouble the first time. I had the wonderful privilege to drag him out the second time (go the D40's ... lol)

The 2nd bog hole. We found a nice hole that i walked beside pushing a stick into the water to see how deep it was. For the most part it looked pretty good. Until the end at least. The water probably went about 3' deep, and the stick did not really push into hard stuff ... so I let the trip leader (Scott) go first and he buried the bull bar under the water. He had a mud bank on the drivers side and could not get out. So I had to do all the work of setting up the recover gear and get set to pull him out backwards - all while the wife's took photos and video of the whole procedure. The kids thought it was just fantastic with the dads playing in the mud.

Here are some piccy's that my wife took.
Scott upfront leading the way this is him stuck the first time ...

We got to the top of the track, and decided to head back down and have picnic lunch at the bottom of the track - the dirty cars:
Scotty:

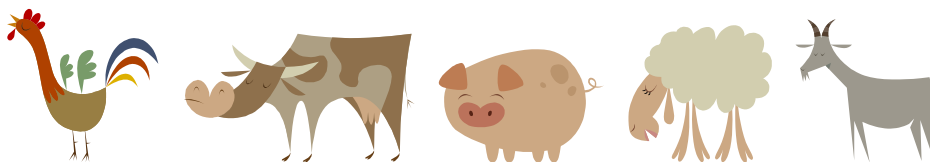

Me & the kids sitting under the cover - it started to rain whilst we were having lunch.
David Bruinsma

FWDV Delegates Brief Sheet to be read out at Club Meetings, or printed in Club Magazines.

November 2010

FWDV AGM & Presidents Meeting

Four Wheel Drive Victoria's Annual General Meeting, Board Elections, and Presidents meeting will be held on Saturday 13th November. The AGM will be held in the morning commencing at 10.00am and is open to all Club members, whilst the President's Meeting will commence at around 12.30pm and is just for Presidents and FWDV Delegates to discuss business matters relating to Clubs. There are still a few vacancies for Club-members to serve as Ordinary Board members, nominations close on Friday 12th November. For further information please contact either a FWDV Board member or FWDV's Office.

Re-elected Brumby Government promises \$5.7 million for Four Wheel Drivers

4WD Victoria has welcomed the promise of a \$7.2 million commitment by a re-elected Brumby Labor Government to Victorian's who enjoy the Great Outdoors. Included in this figure is \$5.7 million specifically directed to 4WD Victoria for the following projects:

- 1/ **Track Maintenance** – 4.0 million over the next four years.
- 2/ **Clean up the Alps Program** - \$600,000 to establish an Annual "Clean up the Alps Program".
- 3/ **Volunteer Groups** - \$300,000 to build on this existing 4WD Victoria Program.
- 4/ **Weed & Willow Eradication** - \$200,000 to extend this highly successful 4WD Victoria program.
- 5/ **Icon Drives Program** - \$600,000 for the creation of a Man from Snowy River Drive

This funding will assist 4WD Victoria in the role out and maintenance of existing and new projects, and will directly benefit four wheel drivers across the state.

New Parks Victoria Chief

Dr Bill Jackson, the Deputy Director-General of the International Union for the Conservation of Nature, has been appointed the new Chief of Parks Victoria. He will take over responsibility for managing Victoria's parks and major waterways. Dr Jackson has been with the International Union for the Conservation of Nature for 15 years. Before that he worked for the New South Wales forests department. He replaces Mark Stone, who has become CEO of Tourism Victoria.

Severe Damage to Tracks

The recent heavy rains in September and October have resulted in dozens of tracks and areas being severely damaged leaving DSE and Parks Victoria with no alternative but to close them indefinitely until basic repairs can be carried out. Many of the tracks have been made unsafe to use even for experienced drivers, and the cost to repair them will run into many hundreds of thousands of dollars, if not more. The websites of FWDV, DSE and Parks Victoria all have the latest information and some show photos of the damage. When planning a trip into bush areas over the coming weeks, it is recommended that you check these websites for the latest conditions before you depart.

New Four Wheel Drive Australia President elected

Four Wheel Drive Australia has a new National President in Eric Morey. Eric had been the 4WDWA delegate on National Council since 2007. One of his many new roles is to oversee the implementation of a revised Business Plan, and the engagement of a contracted media expert to raise the profile of four wheel driving at a Federal Level along with representation to national politicians and their advisors.

Variety 4WD Trek 2011

Prestige OffRoad has joined Variety a new sponsor of the 2011 Variety 4WD Trek. The event will start from Croydon and will travel through Mansfield, Licola, Dargo, Omeo, Jindabyne, Eden and Orbost to finish at Lakes Entrance. The dates for this event are 25th March to 2nd April 2011. In 2010 the events raised some \$117,000 for children who are sick, disadvantaged or have special needs. Information and entry forms are available at janetteconnelly@variety.org.au or visit www.varietvict.org.au
