## President's Report

Hi All

Another month has flown by, and we are fast approaching the EOFY and our next AGM.

Last month we had Trevor from Autophix with us sharing his range of ODB scanners and gave the members a good discount if they purchased one. A fair few people used this opportunity to purchase a unit.

We have a few trips and events coming up so make sure to check out the trip section of the magazine to see what is coming up.

At the end of the month we have our Christmas in July at the Upper Yarra Reservoir, if you are coming, please RSVP with a head count so we can cater for the event. Please remember you need to book a site (It's free). See the Trip data form for all the details.

Snow trips are also coming up (Hopefully we get enough snow), permits are now available on the FWDV page, see the trips email for more info or reach out to Andy or myself if you need a hand.

The club has managed to get a discount code through Survival First Aid Kits so if you are looking for a new kit check them out and use the code to get a 10% discount. We will share the code at the next meeting as well as via email.

The national 4X4 outdoor show is coming up from the 22<sup>nd</sup>-24<sup>th</sup> August. If we have enough interest, we will have a club stand.

FWDV will provide:

- Free club exhibition and allocated space to promote the club, membership, trips, or vehicle/s
- Complimentary three-day tickets for those members/volunteers managing the club's exhibition on-site

As mentioned earlier our AGM is coming up in August, please put some thought into the roles you may be able to assist with next year

After more than a decade in the role Ben is stepping down from the "Web Support" role. We are looking for an IT savvy person to fill this role. If you think this describes you please reach out to me or Ben so we can run through the role.

A massive thank you to Ben for his commitment to the club in keeping our web and club emails up and running and being an active committee member this whole time.

## Track Classification

[Four Wheel Drive Victoria](#) have a track grading classification scale which has been developed to assist in advising Trip Leaders and participants on 4WD trips of the type of tracks that they can expect to encounter. On most trips participants can expect that a variety of tracks will be traversed each with an appropriate rating. Trip Leaders should advise participants of the range of track ratings expected to be encountered on the planned route. The following classifications will assist in determining an overall Trip Rating:

Considerations	Easy	Medium	Difficult	Very Difficult
Overall Description	All Wheel Drive and High Range 4WD. Novice Drivers	Mainly High range 4WD but Low range required. Some 4WD experience recommended.	Significant Low range 4WD with standard 4WD ground clearance. Should have 4WD driver training.	Low range 4WD with High ground clearance. Experienced Drivers
Advisory Sign				
Expected terrain and track conditions	Mostly unsealed roads with no obstacles and minor gradients.	Tracks with some steep and/or rocky/slippy/sandy sections. May have shallow water crossings.	Tracks with frequent steep and/or rocky/slippy/sandy sections. Possible water crossings.	Tracks with frequent very steep and/or rocky/slippy/sandy sections. May have difficult river crossings.
Vehicle suitability	All wheel Drive and High Range 4WD. Can be low clearance with single range and road tyres.	Suitable for medium clearance vehicles with dual range and all terrain or road tyres.	Suitable for medium to high clearance vehicles with dual range and all terrain tyres.	Suitable for high clearance vehicles with dual range and tyres suitable for the terrain. (Mud Terrain tyres).
Recovery equipment			Recovery equipment required.	Winch / Recovery equipment required.
Driver Training / Experience	Suitable for novice drivers.	Recommended that drivers have experience or 4WD training. Recommended to be done in groups of vehicles.	Recommended for drivers with reasonable experience or 4WD training. To be done in groups of vehicles.	Drivers with extensive experience and advanced training should only attempt as there are several technical challenges. Recommended to be done in groups of four or more vehicles.

## Trip Report – 4WD Training weekend, Aberfeldy Area

Date: 17<sup>th</sup> May 2025

Trip By: Phil

Report By: Joshua Miller

### Participants:

Ashleigh – Chopped Landcruiser

John – Nissan Patrol

Phil – Ford Everest

Steven and Joshua – Mazda BT50

Alan and Anne – Toyota Prado

Adam – 200 Series Landcruiser

Mark – Mitsubishi Triton

### Day 1 – Saturday, 17 May

The trip started with a meetup at the BP at Officer at 8am. We would meet up with Mark afterwards, and John met us at the beginning of the tracks.

### Day 1 - Crossing Thomson Dam

## Trip Report

Off to a good start, the morning overcast began to clear up, starting off the weekend with sunshine, enthusiasm, and (apparently) a rare pun from Phil (that Alan proudly caught).

The morning had us covering some fundamentals, including essential stop/start recoveries.

### Crossing a baby creek

We inspected Little O'Toole campground at 11am and flagged it as the point to camp for the night. While at Little O'Toole, we had a mid-morning snack stop. followed by a vehicle walkaround.

Everyone went around and introduced their vehicles: their setups, recovery kits and points, and instructors discussed the must-have recovery gear - including winch-specific extras.

## Trip Report

We then navigated a series of tracks. It was a journey of Flats Track → Williams Spur Track → S Track, and back again in reverse.

I discovered that whoop-de-dos feel much more aggressive on the way down than on the way up, which was surprising/alarming to discover on my first encounter.

At one point, John who was riding shotgun in Mark's Triton, had to dismount to give guidance to Mark to help Mark traverse a tricky rocky downhill section. John was talking Mark through the section via handheld radio, plus accompanying hand signals. With John's guidance Mark got through the tricky section with no mishaps. It was when John jumped back into the Triton he found out that he had taken Mark's radio and had left his in the Triton turned off. We had a laugh about who exactly John was trying to talk to in that moment (No one). Mark had navigated the section on John's hand signals alone. 🤔

A potential candidate for the 'Good on Ya' Award.

Just before driving back into the Little O'Toole campground, we stopped by the main O'Toole area. It used to be a marketplace during the gold rush. The main O'Toole area was surprisingly quiet and clean with only three vehicles there.

We returned to Little O'Toole to set up camp. Dinner was served around 5:30pm and cleaned up by 7:30pm. I cooked up a delicious stir-fry for my dad and me.

The evening saw stories, wine, and beer shared around the fire. A spirited debate about Aldi wine ensued. Verdict: Aldi had surprisingly solid drops. Recommendation noted

Before turning in, the plan for Sunday was laid out: steeper tracks, more recovery practice, and a proper river crossing. We'd begin with a theory review from our 4wd questionnaire homework to kick off the day.

## Trip Report

### Day 2 – Sunday, 18 May

The day began with theory questions and some hands-on training. By late morning, we'd hit some steeper, rockier sections.

One memorable moment: a stubborn rock outcrop got the better of a Mazda (twice, stalling on the first attempt) resulting in a winch recovery and a useful debrief on better wheel placement

Yesterday during the vehicle tours/inspections, I was taught that part of winch maintenance is unspooling it every three months. I was worried, knowing it was 11 months (June 2024) since we last used it. The universe quickly soothed my worries by shortly getting me stuck 3 hours later. Also, I was told I set a record for being the first driver to ever need a winch recovery on a training trip.

## Trip Report

Shortly before we stopped for lunch, I embraced my inner talent for technical driving by managing to stall the Mazda on a whoop-de-do going uphill. Another win for an amateur 4W driver. I certainly did get my practice in for stop/start recoveries this trip.

**Crossing Aberfeldy River**

Lunch at Aberfeldy River gave everyone a break and a chance to reflect

**18th of May, Sunday, 1pm – Lunch at Aberfeldy River**

## Trip Report

The trip wrapped up at the Silver Top picnic area near Thomson Dam. We aired up, said our goodbyes, and left with mud on our tyres, new skills to develop, and more stories for a future campfire.

Thanks again to our instructors - Phil, Ashleigh, and John; for their guidance, patience, and Aldi wine reviews.

A great weekend all around, we left looking forward to joining the club in future trips

## Trip Report – Easter 4wd Trip

Date: Easter Weekend, 2025

Report By: Andre

### Participants:

Andre and family – Amarok + trailer

Andre's Friend – Mitsubishi Pajero

Steven Miller – Mazda BT-50

Sushant – Hilux

### Day 1: Yarra Glen to Pineapple Flat Campground

Our Easter 4WD adventure began with a lively meetup in Yarra Glen. We had a 4-vehicle convoy: three from the club and a friend of mine, who is looking to get into more adventurous camping. After a quick briefing and ensuring everyone was ready, we hit the road through Mansfield. The journey was smooth until we turned off the sealed road at Buttercup Road, transitioning onto Carters Road. The excitement was palpable!

### First Stop: Tomahawk Hut

Our first stop was Tomahawk Hut, where we encountered the Pajero Club. Parking was a bit of a challenge due to the crowd, but it was a great spot to visit and stretch our legs. We had a good laugh trying to squeeze our vehicles in like a game of Tetris.

From Tomahawk Hut, we followed No3 Road to Razor Back Hut. The drive was scenic and enjoyable, with everyone in high spirits and a few friendly honks along the way.

### Camp for the Night: Pineapple Flat Campground

We arrived at Pineapple Flat Campground via King Basin Road. Despite the busy camp, we managed to find a reasonable amount of space to set up. The drop toilet struggled to keep up with the number of campers, but it was manageable. The kids braved the cold river for a swim, and the climb out into the campground was interesting but not too difficult. We joked about the river being a "refreshing" wake-up call.

## Day 2: Pineapple Flat to Craig's Hut

The next morning, we continued on King Basin Road, crossing the King River multiple times. Our first stop of the day was King Hut, another excellent hut worth visiting. We shared stories and a few laughs about our adventures so far.

## Climb to Cobbler Lake

We took a left up Speculation Road, which turned into a steep climbing track known as Cobbler Lake Track. Cobbler Lake was breathtaking and well worth the drive. While there, we took the opportunity to walk to Dangdongadale Falls, a very high waterfall with a tiny creek trickling over the edge. We even laid down to take photos over the edge, capturing the stunning drop below.

After enjoying the sights, we backtracked to Speculation Road, then took Circuit Road to Clear Hills Track, leading us to Craig's Hut. The view from Craig's Hut was spectacular and a highlight of the trip. Sushant was particularly pleased he decided to come up to the hut before heading home.

## Split in the Group

At this point, Sushant and Steve had to head home and left as a two-vehicle convoy. The rest of us decided to stay, despite the forecasted rain, which fortunately stayed away. We were greeted by a clear morning, making for a pleasant end to our trip. The camp just off Craig's Hut was not too busy, providing a peaceful night. We joked about our luck with the weather, calling ourselves the "Rain Dodgers."

## Special Notes

It was heartening to see many P-Platers out enjoying the bush responsibly. Most of them were courteous, stopping to chat and often pulling over to let our convoy through. A big thank you to everyone who came along and made this trip memorable!

Looking forward to our next adventure!

Andre
